## Custom L-Shape Shower Glass

---

L-shaped shower baths are great for a small bathroom with a modern aesthetic. It is ideal for all contemporary bathrooms due to its well-defined area and clean lines.

102

103

## Custom L-Shape Shower Glass

Our custom shower doors are made of high quality glass, which allows them to last for many years with little maintenance. With a proactive team of highly skilled, experienced and dedicated shower door professionals and installers. We ensure that the shower door products we offer are structurally sound.

104

105

106

## NEO ANGLE SHOWER GLASS

A 3 piece shower glass, 2 fixed glass goes all the way to ceiling and door mounted with fixed glass.

### HARDWARE

- 135 degree hinges glass to glass
- U-channel or Clamp
- 6 inch handle

107

## IN -LINE SHOWER ENCLOSURE

---

With In-Line shower, there is no room between the glass and glass panels, preventing mold from growing. Using interior glass wall liners in shower alcoves can create a spa-like atmosphere.

108

## BATHTUB ENCLOSURE

---

Glass bathtub enclosures add modern elegance to bathrooms. We offer Homeowners wide selection of options, so they can find what they need. Their different design elements can be seen together, making the space feel more unified and polished.

---

## GLASS PARTITION

Do you have something in mind that you've never seen before? If you'd like it made from glass, we can probably do it for you.

## LIVING ROOM GLASS PARTITION

With a wide selection of standard hinges, hydraulic hinges and sliding systems there are many options to compliment the design intent of your space. Aesthetics are not the only advantage to glass wall systems, natural light floods into your space increasing productivity and boosts moral

## GLASS STAIRS

Take your stairs from boring to brilliant with a custom cut and designed glass railing. We create framed or frameless styles, and we have the ability to fit them with just about any glass pattern you can think of. Our glass railings give your home a light, airy feel without the visual interference caused by wooden or metal slats and rails.

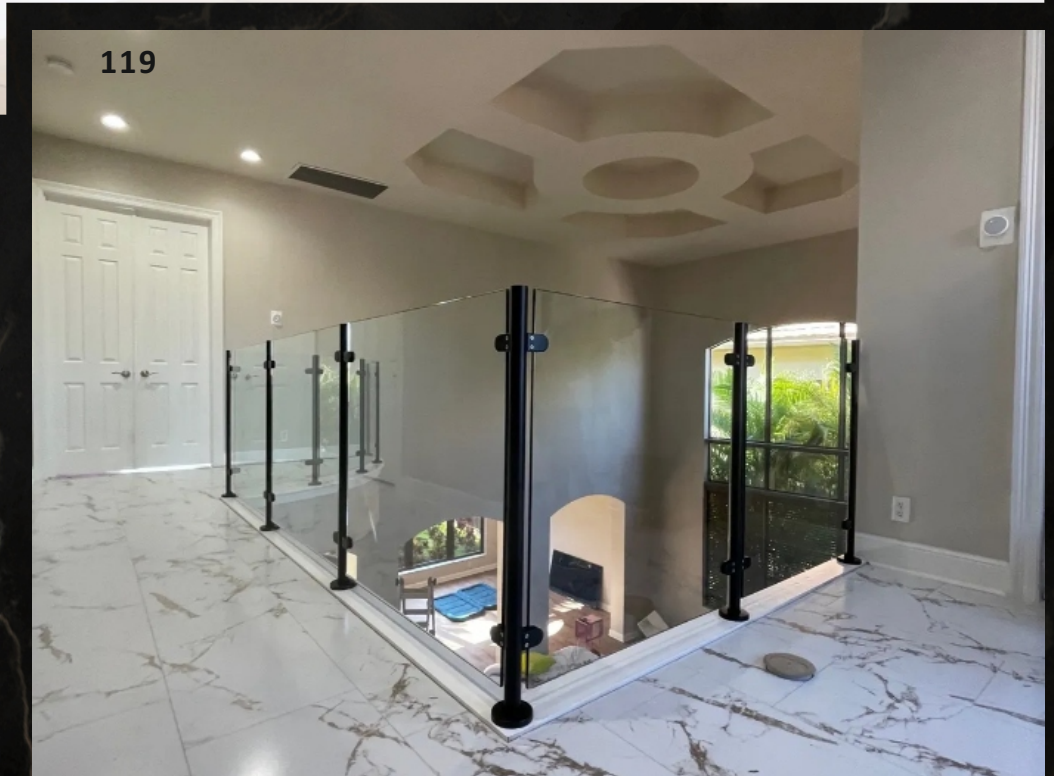

---

The glass base rail system is made up of a thin piece of aluminum that runs along the bottom of the railing, holding up each glass panel. The top of the glass panels can act as the handrail — so there's no need to add a metal or wood handrail. But a slender stainless steel can be added to the top of the panels, for a sleeker, finished look.
